Re: Water Right No. S2-29509 for 1808 Summit Lake Shore Road

Dear Mr. and Mrs. Chase:

In response to your request, you are hereby granted an extension of three years to complete construction for the reasons below:

- Due diligence is shown in development of this permit. The parcel covered under this permit has a water line trenched in from the lake and a drain field in place.
- Additional time is required to secure finances to complete construction.

The new deadline to complete construction of your water system and submit your *Construction Notice* is **July 1, 2018**.

Please note that this permit was assigned to you in 2005 and has been in the construction phase for a decade. Because projects under permits must be pursued with due diligence and completed in a timely manner, you will need to show considerable progress in developing the water system and finalizing plans to construct a home.

If you have any questions, please contact Marie Peter at (360) 407-0279 or mpet461@ecy.wa.gov.
